Investigation Showed That Rails Had Been Spread and Spiked On Pennsylvania Road.

ENGINEER AARON RAUP KILLED

And Eight Passengers Injured In Catastrophe Near Hazelton Today—Those In Coaches Largely Minors.

[BY ASSOCIATED PRESS.] Hazelton, Pa., June 27.—Spreading rails wrecked the Pennsylvania road passenger train at Lofty, Pa., early today, causing the death of Engineer Aaron Raup. Eight passengers were seriously injured.

NEWS FORECAST OF THE COMING WEEK

Taft Will Give Up Place in Cabinet on Tuesday Next—Exhibition at Calgary.

Washington, D. C., June 27.—On Tuesday next Secretary of War William H. Taft, the republican nominee for President, will give up his place in the cabinet and will be succeeded by General Luke E. Wright of Tennessee. Mr. Taft is already in daily receipt of numerous invitations to attend public functions and to speak in various parts of the country. It is understood that for the time being he will confine his public appearances to those invitations he had accepted before receiving the presidential nomination, and during the heated term will endeavor so far as possible to obtain a rest in preparation for the strenuous campaign work to come in the late summer and fall.

The end of the coming week will see the democratic delegates turning their steps toward Denver in anticipation of the national convention, which meets in that city July 7.

The Socialist Labor party, composed of the De Leon Socialists, will meet for its national convention in New York City Thursday and according to programme will nominate a full anti-Bolshevik ticket.

Republicans will hold state conventions in Minnesota and Maine for the nomination of candidates for governor and other state officers. A rivalry fight is on in Minnesota for the gubernatorial nomination. In Maine the contest centers around the enforcement of the prohibition laws.

Lower democrats will meet at Sioux City to ratify the state ticket selected at the recent primaries and to adopt a platform. In Montana a democratic state convention will be held for the selection of delegates to the Denver convention.

While the people of eastern Canada are busily engaged in preparations for the reception of the Prince of Wales and the celebration at Quebec, the attention of the western part of the country will be centered during the coming week in the foundation exhibition at Calgary. Great plans have been made for the fair, which will afford striking evidence of the amazing growth and development of western Canada during the past few years.

On the other side of the Atlantic there will be some events in which Americans will be interested. Both the United States and Canada will be represented at the third international council meeting of Congregational churches, which is to begin its sessions Tuesday in Edinburgh.

The Lambeth conference, or the Pan-Anglican conference of bishops, will begin in London next Saturday. The conference, which is one of great importance in the church world, meets but once in ten years.

Among the large conventions to be held in the United States during the week the one of most importance will be that of the national Education association, which is to begin its sessions Monday in Cleveland. Other meetings of interest will be those of the Young People's Christian Union in this city, and the national German-American Teachers association in Milwaukee.

The eyes of the sporting world will turn toward San Francisco next Saturday, when Joe Gans and Battling Nelson will meet once more to contest for the lightweight pugilistic championship.

WELLS BUILDING CO. SUED FOR \$12,500

Indemnity for the Death of Banker L. D. Hinkley, of Waupun, in Elevator Accident Last Winter.

Milwaukee, Wis., June 27.—For the death of L. D. Hinkley, a prominent banker of Waupun, in the Wells building elevator accident, November 6th, last, Mrs. Lizzie Hinkley has sued the Wells Building Company for \$12,500.

250 Pounds of Dynamite: Five boxes containing 250 pounds of dynamite arrived at the St. Paul depot last night. The explosive was consigned to the city crusher plant and had to remain in the station until this morning. The delicate task of conveying it to the scene of action devolved upon Tim O'Sullivan, who administered his helpers "a put plenty of hay under the stuff." It expected him to risk his life with it.

MANY USES FOR THE MERRY WIDOW "BONNET"

SCHOOL ORGANIZED TO BEGIN MONDAY

Chicago School of Civics and Philanthropy to Begin Sessions on Monday.

Chicago, Ill., June 27.—In the belief that a knowledge of civic affairs and sound government is fundamental in dealing with the social problem, and that charitable relief work is only incidental, the Chicago school of Civics and Philanthropy has been organized and will begin its work of instruction next Monday. Lectures on municipal plans will be given daily by experts, as well as a general course in charitable and philanthropic work. Its course of study will amount to a professional training for students not only in charitable and philanthropic work, but in civic and municipal affairs from the charitable side, that phase of the social problem being considered fundamental. The Chicago school is to be much broader in its scope and will place civil service above charitable relief work. Professor Franklin Taylor and Miss Jane Adams, who are the chief promoters of the movement, say that the need of trained charity workers is over present and the school will give what practically will amount to a post-graduate course in social problems.

EDUCATORS GATHER FOR BIG MEETING

National Educational Association Convention Will Open on Monday.

Cleveland, O., June 27.—The lobby of the Hollenden hotel, which is the headquarters of the national convention of the National Educational association, is crowded today with prominent educators who have come from all parts of the country to attend the meetings. A large proportion of the delegates have arrived, though the first general session of the association will not be held until Monday afternoon. The local committee is counting upon an attendance of visitors that will approach close to the 50,000 mark.

STOCKBUYER WILL LOCATE IN CITY

Evanville Company Sends Man Here to Buy Fat Live Stock of all Kinds.

For some time Janesville has been without a live stock buyers. This will be remedied next week when H. H. Lay of Evanville will come here to locate. Through the solicitations of some local business men and the Northwestern railroad he has been persuaded to locate in Janesville permanently. He expects to make his abode on next Tuesday and will be spending next week buy all kinds of live stock.

As he is backed up by the Evanville Live Stock Co. composed of some of the best business men in that community it is unnecessary to say that he is perfectly responsible.

The lack of a live stock buyers has been keenly felt by the farmers in this vicinity. During the past few months hogs and cattle have been hauled through Janesville from south of here as far as Milton and sometimes even to Edgerton. A very large territory lying east and southeast of the city has not had a stockbuyer through there for several years. Last week two different farmers, who had hauled their hogs to Janesville, again as they could not find buyers here.

The coming of Mr. Lay and his permanent location here will therefore be welcomed by stock raisers in this vicinity.

Game at Park: The baseball team of the Lewis Knitting Co. crossed bats with the team from the Wisconsin Carriage Co. this afternoon at Athletic park.

OLYMPIC ATHLETES SAIL FOR LONDON

Leave New York on American Liner Philadelphia—Reach London July 4th.

New York, June 27.—With the cheers of many enthusiasts ringing in their ears, several scores of well-trained and finely developed young Americans sailed away on the American liner Philadelphia today en route for London, where they will compete in the Olympic games next month against the best muscle of the world in feats of skill, speed and endurance. In answer to the cheers the athletes proudly unfurled two American flags, and shouted "Hay, ray, U. S. A." The athletes were in good spirits and evidently pleased with the send-off given them. They will arrive in London about July 4, and will have about a week in which to prepare for the competition, as the stadium will open on July 13.

SHERMAN BETTER IS THE REPORT NOW

Vice Presidential Candidate is Gaining Strength Very Rapidly Today.

Cleveland, O., June 27.—Congressman Sherman enjoyed a good night's sleep and awakened this morning with a temperature, pulse and respiration normal.

TAFT TALKS OVER POLITICAL PLANS

Meets With Roosevelt Today to Discuss Luke E. Wright's New Job and Chairman of National Committee.

Oyster Bay, June 27.—Secretary Taft and General Luke E. Wright arrived here this morning and held a conference with the president, regarding the nomination of the war party, by Wright and on the chairmanship of the republican national committee.

HARRY THAW WILL HAVE A NEW TRIAL

Is Granted Stay by Supreme Court and May Have Jury Trial After All.

Poughkeepsie, N. Y., June 27.—Harry Thaw today obtained a new writ of habeas corpus restraining before Supreme Justice Mills at White Plains on Monday morning, when the counsel for Thaw will endeavor to secure a jury trial to pass upon his mental condition.

ASK ASSISTANCE OF THE UNITED STATES

Mexican Government Requests United States to Preserve Neutrality Laws.

Washington, June 27.—It was announced today that Mexican government has requested the assistance of the United States in preventing violations of the neutrality laws during the revolutionary movement now in progress in Mexico.

COMMISSION SAILED FOR FRANCE TODAY

Men Chosen to Confer on New Reciprocity Treaty—To Hold Conference in Paris.

New York, June 27.—The members of the American commission chosen to confer with a similar committee appointed by France to draw a new reciprocity treaty between the two countries sailed for Europe today on the Vanderland. On reaching Paris the commission will begin immediately their series of conferences with the French commission.

It is learned from semi-official sources that while no attempt will be made to drive a hard bargain with France, many tariff concessions desired by domestic business interests for several years will be sought. On the other hand, France will seek to enter into the United States at lower rates wines, works of art, and other products.

TENNESSEANS VOTE FOR NEW GOVERNOR

Democratic Primaries Held Today in Every County in the State—Two Candidates.

Nashville, Tenn., June 27.—Before Monday morning the people of Tennessee probably will know who is to be the next governor of the state. Today in every county ballots were being cast in the democratic primaries to decide whether Governor Malcolm R. Patterson shall return to the state capital after the next election, or whether ex-Governor Edward W. Carmack will win his fight and become the choice of the people for governor. The fight has been one of lively interest, not the least important feature of which has been a series of joint debates between the two contestants that has taken them to every city and town of importance in Tennessee. Governor Patterson and his friends who are supposed to be strongest when issues are to be decided by convention, were at first opposed to a primary, while the friends of Mr. Carmack insisted that this was the only fair and truly democratic way of selecting a candidate. The primary plan was finally adopted and was gracefully accepted by Governor Patterson.

Ex-Governor Carmack is highly popular with the people of Tennessee, but Governor Patterson, who is the son of the late Congressman Joshua Patterson, is a man of great political resources and is a born fighter. He has the machine back of him and a following of officeholders on whom loyalty he may count. The prejudice against machine politics has reached Tennessee, however, and public sentiment on that question has been expressed unmistakably. How far it may affect the result of the present contest, however, cannot be foretold with any certainty.

The republican profess to believe that if Mr. Carmack is defeated for the nomination there will be so great a disaffection among the democrats that the republican candidate will stand a good chance of election. But the republicans also are split by factional differences, and the democrats are not greatly worried over the possibility of republican success.

Automobiles Here: L. R. Jones and party arrived here from Delavan in a touring car today. R. O. Falk was here from Madison with his Buick roadster. Mr. and Mrs. W. Conantworth and Mr. and Mrs. H. B. Peters of the Havesanwood Golf club were expected to arrive here in a touring car into this afternoon.

ROOSEVELT'S CABINET HAS RECORD FOR MANY CHANGES

Only Two Men Now There Who Were In Cabinet When Roosevelt Became President.

[SPECIAL TO THE GAZETTE.] Washington, D. C., June 27.—The retirement next week of War Taft will leave but two men in Mr. Roosevelt's cabinet who were there when he succeeded to the presidency upon the death of President McKinley. These are Secretary of State Root and Secretary of Agriculture Wilson. Mr. Root was secretary of War when Mr. Roosevelt became president. In September, 1901, he shortly afterwards retired from the cabinet, but was reappointed to re-enter it upon the death of Secretary of State Hay. There have been more changes and shifts in President Roosevelt's cabinet than in that of any of his predecessors. He has had two secretaries of state, Mr. Hay and Mr. Root. He has had three secretaries of the treasury, Mr. Gage, Mr. Shaw and Mr. Cortelyou. With the succession of Luke E. Wright he will have three secretaries of war, Mr. Root, Mr. Taft and Mr. Wright. He has had three attorney generals, Mr. Knox, Mr. Moody and Mr. Bonaparte. He has had five postmasters, Mr. Smith, Mr. Payne, Mr. Wynne, Mr. Cortelyou and Mr. Meyer. He has had five secretaries of the navy, Mr. Long, Mr. Moody, Mr. Morton, Mr. Bonaparte and Mr. Metcalf. He has had two secretaries

BELOIT COMPANY IS OFF FOR THE CAMP

Co. L. of the Line City, Departs on Its Annual Visit to Camp Douglas Today.

Beloit, Wis., June 27.—Company L. of the Wisconsin National Guard left at 6 o'clock this morning for the annual encampment at Camp Douglas. The company carried a full quota of 68 men and in addition three Beloit men went to play in the regimental band. The local men have great hopes of landing in first place in the state this year and with this object in view have been drilling hard during the past two weeks.

Whitehead the Orator. State Senator John M. Whitehead has consented to deliver the oration at the Fourth of July celebration here next week. There will be three bands, two of them unique, the city band, which is not union having agreed to march. It will be allowed to play in the park. Committees have been appointed and it looks now as if the celebration might be a success.

New Church. The English Lutheran church will at once begin the erection of their new house of worship. Only the basement will be finished at first and a temporary roof will be put on. When able the congregation will continue the structure.

Because when Mrs. Robert Booth, formerly of this city, was being tried for murder at Rock Island, Ill., the Salvation Army refused to aid her, she and her husband, who was an evangelist in the organization, have resigned and left the Army.

Dig Up Streets. Workmen of the Beloit Water, Gas & Electric Co. have been digging considerably in the streets lately in assisting the state railroad commission to ascertain the size of gas and water pipes in making an inventory of the company's property.

DISTRICT ATTORNEY PAID HIS CAR-FARE

A. P. Anderson Given a Chance to get Back to Whitewater—LaPrairie Man Lost and Found—Other Police Notes.

A. P. Anderson of Whitewater, who was taken into custody while in an intoxicated condition Thursday night and given an opportunity to leave town, yesterday forenoon found himself in the lock-up again this morning. He pleaded earnestly for a chance to go home and get the money when assessed a fine and costs amounting to \$1.10, with the alternative of ten days in jail. At the same time admitting that he had no money even to pay his railroad fare, District Attorney J. L. Fisher, who happened to be in court at the time finally advanced a half a dollar and on recommendation of Chief Appleby, Anderson was given a chance to catch the 10:15 train.

Lost Man Found. W. Schoeberle, a farmer residing in the town of LaPrairie, arrived here with a load of rye yesterday and sold it for \$1.80. He left the team at the West Side hitch barn about one o'clock but subsequently got it out with the intention of returning home. About one o'clock this morning he again put the outfit in the hitch barn telling the proprietors to put the horses on in the field. At this time Mr. Schoeberle showed visible effects from consuming with too many cheering cups. Early this morning his wife and son arrived on the scene to search for him and invoked the aid of the police. Warying of the search they took the team and drove back home about the middle of the forenoon. Not long after they had departed, the head of the household was located in a saloon and advised to follow up and make peace with his family.

Griffith Case Adjourned. The case of the state of Wisconsin vs. Mrs. Clara Griffith, charged with frequenting a disorderly house, was adjourned until ten o'clock Monday morning, at which time the actions against Janet Witham Rice and her associates will come up for trial.

Not Taken to Court. With his own consent, a traveling man, who had been indulging in a three days' debauch at one of the local hotels, was taken to the lock-up for a sobering treatment last night. He was released this morning. Tom Higgins, a rather unwholesome looking individual who claiming to be a club bartender in search of employment, was also kept in the cooler over night and released this forenoon.

MISS MABEL GLENN
MARRIED WEDNESDAY
Ceremony Was Performed at the Bride's Home at 378 St. Mary's Ave. in This City.
A very pretty home wedding was solemnized Wednesday afternoon at the home of Mr. and Mrs. A. M. Glenn, 378 St. Mary's Ave. Miss Mabel Glenn, a recent teacher in the city schools was the happy bride while the fortunate groom was Elmer P. Coon of Milton Junction. The ceremony was performed at 5 o'clock, the words being spoken by Rev. A. W. Dyer of Rockford, Ill., an old friend of the bride. The bride party entered the parlor to the tune of a wedding march played by Miss Rachel Coon, sister of the groom, and beneath a floral arch with a horse shoe of flowers suspended above them they took upon themselves the obligations of husband and wife. The bride was tastefully attired in white. Mr. Coon is a prosperous farmer near Milton Junction and was formerly a student of Milton college at which institution it was his good fortune to form the acquaintance of his wife. The home was beautifully decorated, the two parlors and dining room being a bower of roses. A dainty three course supper was served immediately after the ceremony. The tables were presided over by Miss Almeta Deane and Miss Hazel Zerk, intimate friends of the bride. The entire affair in which were held was amply shown by the handsome presents that will adorn their new home.
The newly married couple left on the vestibule at 9:15 amid a shower of rice for Madison and other points north where they will spend a short honeymoon.
Clark-Crawford.
On Wednesday, June 24, occurred the wedding of Miss Elva Crawford, of Barron, Wis., to Arthur Clark, of Lansing, Mich. The ceremony took place at 10:30 a. m. Rev. Kershaw officiating. The bride party stood beneath a wedding veil in the corner of the parlor, which was banked from ceiling to floor with ferns. The bride wore white Persian lawn and carried brides roses. After the congratulations the guests sat down to a three course wedding breakfast. The happy couple left on the two o'clock train for the twin cities, where they will spend a week.
Mrs. Clark has been well known in musical circles of Barron and the groom is a member of the agricultural department of the university of Michigan.
Mr. and Mrs. Clark are well known here, having lived here nearly all their lives and have a large circle of local friends who will wish them many years of married life and prosperity.
Mr. and Mrs. R. W. Clark, Mr. and Mrs. G. L. Noyes, daughter and son, Mr. and Mrs. S. G. Lawson and son, and Mr. and Mrs. P. T. Lawson, of Janesville attended the wedding returning to this city this morning.

Suggestive Questions on the Sunday School Lesson by Rev. Dr. Linscott.
June 28th, 1908.
"Temperance Lesson," Eph. v. 6-20.
Golden Text.—Do not be drunk with wine wherein is excess; but be filled with the Spirit, Eph. v. 18.
Verse 6.—What is it that has stamped some things as always and necessarily evil, and other things as good?
Read the five preceding verses and say why the things mentioned are vices and are always condemned in the Bible.
Why, for example, are lying, stealing, covetousness, evil speaking, laziness, drunkenness, gluttony and kindred things always wrong?
In what way does "the wrath of God" come upon immoral persons?
Verses 7-10.—Is it wise or right for any person to experiment with, or try to prove for himself by experience, what the results are of the actions which the Bible and the wisdom of the ages have declared to be harmful?
Are there some things which we have to experiment with in order to learn their effects; that is "proving what is acceptable unto the Lord"?
Is every act that works out "goodness and righteousness and truth," fruit of the Spirit, whether or not it is in harmony with the strict letter of the law?
Can a person retain the favor of God, if he continues to do that which either hurts himself or his neighbor, whether it is within the letter of the law or not?
Verses 11-12.—What should be the attitude of every good man to the liquor traffic and kindred evils? (This question is to be answered in writing by members of the club.)
What are the effects, upon the mind

FACTORIES HAVE

A GOOD BUSINESS

GENERAL RESUME OF THE MANUFACTURING SITUATION.

SOME ORDERS ARE RUSHED

On the Average the Usual Summer Depression Has Not Affected Business in the East.

A quietness seems to prevail in all the factories, though not enough to do any real harm. Most of them are running but not as strong as they are able to.

The Strickler Hay Tool company report a good business. The large crop of hay which is expected this year will help them in their sales.

The J. P. Cullen company started yesterday placing the forms for the cement work in the basement of the Hoswick building. At the Hoswick school practically all of the mason work of the building has been done and they are at present busy getting out the interior finishing at the planing mill. A carload of doors and windows have been sent down to be placed in position.

Business at the New Daily Machine works was dull, due Mr. McWhorter says to the dull business conditions throughout the United States so that they suffer no worse than the others. Painters are brightening the appearance of the office building with a coat of white paint.

At the Rock River Machine company business was good, that is as good as could be expected. They are working full time but are not rushed. No large orders, but enough single orders to keep going so that they average well at the end of the month.

The Dodge State Machine company report a fair amount of business, of good sized orders with their force working full time.

The Western Shoe company have been making some changes in their office and will start up the factory in a couple of weeks, after some changes have been made there. Just what these changes will be has not been definitely decided.

The Janesville Machine company have shut down to take inventory. They are tearing out the ceiling in the boiler room and will extend it up to the roof.

At the Barb Wire Works they are still working to keep up with their present orders and in a month will be running strong again. The work at the new building has been retarded by the presence of an old foundation where the excavating is going on.

The Clinehor Tire Cover makers report an increase of orders. The Shurtliff company have been sending out from three to five hundred gallons of ice cream every day this week and make from three to four thousand pounds of butter every Tuesday, with a total of about eight thousand pounds a week.

The Janesville Cement Shingle company are working overtime making green shingles for a big school house in Chicago. They received the order last Monday, one of the most prominent architects in Chicago having specified these shingles in the plans. They have established agencies in Chicago and Milwaukee where their shingles find a ready use. They have the contract for the gravel to be used in building the state Normal school at La Crosse.

At the P. Hohenadel, Jr., cannery factory they are busier than ever and are running nearly up to their capacity and have increased their force.

The full force of the Hough Shingle Corporation are working and plenty of orders are coming in to keep them busy. The company gave its 75 employees a picnic up the river Thursday. Starting at 7:30 they went up to Crystal Springs where the day was spent with sports and games. The return was made about 7:30 o'clock.

At the Rock County Sugar company men are working putting in some new machinery and inspecting and overhauling the old.

The Janesville Cement Post company are sending out steady shipments of posts in carload lots.

The sand company are sending out about eight carloads of sand a day.

INSTITUTE WILL

OPEN ON JULY 6

TO LAST FOR TWO WEEKS

ROCK COUNTY TEACHERS WILL GATHER HERE FOR TWO WEEKS.

Sessions Will be Held at the High School Building—Prof. D. O. Kinsman in Charge.

On Monday, July 6th, the Rock County Teachers' Institute will begin its regular annual session at the Janesville high school. The institute will last for two weeks and it is expected that practically every teacher in the county will be present, making the number of those in attendance between one hundred and fifty and one hundred and sixty.

Men in Charge.

The institute will be in charge of Prof. Kinsman of the Plattville Normal school, Prof. D. O. Kinsman of the Whitewater Normal school, Prof. E. A. Harrison of Broadhead, and Prof. F. J. Lowth of Clinton. Each of these men will handle certain subjects and will be assisted in the work by Miss Ida Smith and Miss Jeanette Cody, both of Janesville, who will have charge of the classes in library work. His work will be to show the proper use and cataloging of the libraries in the schools. He will also have classes in school management and in the teaching of primary reading.

Prof. Kinsman will devote his time to the history and civic courses while Prof. A. Harrison will give work in agriculture and language. The work in agriculture will be in the line of the proper usage of the text books and also to show certain simple experiments which can be performed in the schools. His aim will be to make the study of botany more practical and useful to the average pupil.

Prof. F. J. Lowth of Clinton will have classes in algebra, American literature and composition while D. O. Kinsman will give work in arithmetic. Superintendent Hennigway will give a course in school law, that is the state laws with respect to schools, and also on the laws on teachers' certificates, reports and teachers' contracts. This work is for the teachers strictly and has nothing to do with their work in the actual teaching. He may also give work in algebra and arithmetic.

Miss Ida Smith and Miss Jeanette Cody, both of Janesville, will have model classes. A class of youngsters will be acquired and will be taught by these teachers in order to show the actual working out of the theories of instruction.

Examinations.

At the close of the classes examinations will be held. The number which a teacher is required to take depends on her certificate and whether or not a higher certificate is desired. At the close of the examinations the grades will be put upon the certificates.

Improvement in Teachers.

During the last five years there has been a big improvement in the teachers in the country schools in Rock county. The wages have been raised so that a high school graduate can obtain better pay in that line than in almost any other. The courses which have been arranged in the local high school to teach future teachers how to teach have also added materially in this result. Besides this the school boards have become more awake to the necessity of obtaining good teachers for the country schools. Rock county is to be congratulated on its country school teachers.

Milliners Held a Gathering at Clinton on Last Thursday—Other Local News.

Clinton, June 26.—Mrs. Townsend was calling on Clinton friends recently.

Miss Nellie Terwilliger of New York has been visiting here of late. Clinton is likely to ere long become a convention town. The last one to be held here was a milliners' convention, held here on Thursday, when Miss Terwilliger of New York, Miss Allen Tuttle of Oshkosh, Mrs. Nellie Tuttle of Elkhorn, were at Mrs. Chivers'. Miss Dorothy of Baraboo, Mrs. Maud Slides of Greely, Mrs. Scott and Miss Snyder of this place were also in town, as was Miss Hollenback.

Mrs. Stony and Miss Josie have returned from their Milwaukee visit. Miss Ruth is not coming for a couple of weeks.

Miss Flora Edwards is home for her vacation.

Mrs. Wm. Vater and children have lately been visiting here and Mr. Vater was here for a short time last week.

C. A. Smith of Oakland, Cal., is expected here ere long.

The temperature on Wednesday evening was far cooler than for the few previous days.

James Wheeler's house has been newly rehung.

Mrs. Derwaldt has been in quite poor health for the past few days.

Mr. Amos and Co. have fished at Deloit on Thursday.

Milford Wilkins and Clinton Collier have arrived from New York, coming part of the distance by auto, some by rail and the balance of the distance by boat.

spending a few days with Clinton relatives.

Mrs. Lida Church of Chicago is visiting friends here for a few days.

Dr. Thomas' family is visiting Chicago friends.

200 ATTENDED BIG FAMILY GATHERING

Annual Reunion And Picnic of the Elmer Family Was Held in Monroe, Wis., June 27.—Nearly two hundred attended the annual reunion and picnic of the Elmer family at Hyde park in this city. The family represents the largest relationship in Green county. There was a picnic dinner at noon and a program of speeches, music and singing in the afternoon. Addresses were made by Rev. J. F. Nehmstedt, Sam Blum and Chas. Stauffer. There were three deaths in the family since the last reunion. Officers were elected as follows: President, I. M. Stauffer; secretary, S. J. Stauffer; treasurer, Henry Elmer; executive committee, Adam Elmer, John Kubly and Fred J. Marly.

Frank Lelpale, aged twelve, was brought here from New Glarus on a charge of picking strawberries from a patch owned by E. S. Hilton. It was found that the boy acted upon instructions given him by his mother and he was discharged.

Farmers between Monroe and Albany through the use of the split log drag have much better roads than those within a few miles of the city. The roads have dried hard and smooth where the neglected roads are rough and full of holes and gullies. It is predicted that the success with which the log drag has been used will soon lead to its general use in the country in this section.

Adam Schmidt, a shoe dealer of this city, is the owner of a two-seated auto-buggy, made by the International Harvester company—the first one brought to the city.

Joe Christal has moved here from Madison, Ill., and will occupy the old Christal homestead east of the city which is now owned by him.

Rev. J. H. Palmer, pastor of the Universalist church, remains in a precarious condition at the LaSalle hospital. He has grown very feeble the past few days as a result of heart trouble with which he is afflicted.

Mr. and Mrs. Peter Brower have moved here from Deloit.

Miss Teresa Gettings is visiting friends in Chicago.

Mandel Brothers Chicago

When you realize that ninety-nine hair preparations out of a hundred, depend almost entirely upon Tincture of Cantharides for any good they may do, is it any wonder that people fail to get beneficial results from them.

Tincture of Cantharides is made by soaking foul smelling green bugs or flies—that have first been dried and powdered—in alcohol and filtering out the sediment. The practice of using Cantharides began centuries ago, when it was thought that a disease of scalp required an irritant. The utter uselessness of continuing to put these dead bugs into hair remedies, became apparent when the European Dermatologist, Dr. Unna (ask your Doctor about him) discovered that dandruff is caused by a germ or microbe; in reality an invisible vegetable growth, that can be passed from one head to another.

An authority says, "Any successful scalp treatment must be based on the recognition of the microbe theory," and further, "What on earth gave Cantharides its reputation in hair remedies, is more than I know. It is a tradition of a century and it is all nonsense. Cantharides cuts into the scarf skin and causes inflammation. It is made of dead bugs, and it furnishes exactly the element of decomposition that scalp microbes thrive upon."

Newbro's Herpicide, the ORIGINAL Remedy that "kills the dandruff germ," contains no Cantharides in any form whatsoever. It is made upon the known principle that dandruff, itching scalp and falling hair, as well as dull, brittle and lusterless hair, are caused by a germ or microbe that finds lodgment in the sebaceous glands of the hair follicles in the scalp.

It should be understood that Newbro's Herpicide does not instantly destroy all of the thousands of colonies of microbes in a diseased scalp, as a live electric wire might be expected to destroy its victims. The microbe growth occurs just beneath the surface of the scalp, therefore, patience and reasonable intelligence are required, but under such conditions Newbro's Herpicide gives results that are often almost marvelous. Even in ordinary use it gives more actual and positive benefit than do all other hair remedies combined. It stops itching of the scalp almost instantly.

Dr. V. T. McGillicuddy, Medical Inspector Mutual Life Ins. Co., N. Y., of Denver, Colo., writes as follows:

"Knowing the composition of Herpicide I can state that it contains nothing injurious. Its use will cure and prevent a recurrence of dandruff. It is an elegant and ideal hair dressing."

During this hot weather people who take pride in extreme cleanliness will find Newbro's Herpicide a positive delight. It cools and comforts the skin and scalp, and at the same time is highly detergent and sanitary. It is indispensable to sufferers from excessive perspiration or prickly heat. Newbro's Herpicide contains no oil or grease. It will not stain or dye.

Unique International Marriage.

Unique International Marriage.

Des Moines, Iowa.—On June 15 there was solemnized in this city an international marriage, which, although not as loudly heralded as the recent ones east, has a heroine, rich in her own name, a native of the Philippines, and a hero of the United States army. The beginning of the attachment dates back to the Spanish-American war, when L. A. Woodring, a member of the Tenth Pennsylvania Volunteers, was stationed in the Philippine Islands.

While located at Manila as head of the volunteer scouting service, Mr. Woodring one day made a nine-mile dash to Cassa Delasca, a plantation owned by an old Spanish colonel, who had retired from service. He arrived in time to rescue a beautiful 18-year-old girl, but not until all her relatives were killed and she seriously wounded. Before him, on his horse he carried her back to Manila and nursed her back to life. They loved and promised to wed. But fortunes of war tore him away from her. He went around the world and was on the boat that rescued Ellen Stone, the American mis-

sionary, from the Turkish brigands. After the war he could not find her. He returned home to discover one had been found under a Montana claim he had taken under the soldiers' act and already had netted him \$18,000. He was offered a place in the United States hospital service and was about to accept it when his Spanish senorita appeared. She had come to America to settle with Uncle Sam for confiscating her father's plantation. She received \$200,000, and then set out to find her lover. She found him here. He gave up his army life and they will be married. They purpose to take a trip as civilians over the territory he traversed as a soldier of war.

OUR SATURDAY NIGHT.

"A young man, being asked how much it cost to live in New York City, replied: 'A little more than your income, whatever that is.' A young city clergyman on his first round of parish calls found a family on the verge of starvation. The man had been out of work for months. He had a wife and five children, the youngest a baby.

"They had just eaten the last bit of food in the house. The young clergyman gave them five dollars and collected for them twenty more before the day was out. A few days later he called to see about getting work for the man. They were again on the point of starving. With the twenty-five dollars the woman had bought a fine new baby carriage, some coffee and sugar.

"When the clergyman expostulated who indignantly denied extravagance. The children had broken the old carriage, and it was necessary the baby should have a daily riding. As for the coffee it was the first they had had in weeks. They were accustomed to it and needed it."

This experience is related by a writer in the July "Appleton's" and is suggestive of the cause of much complaint that is heard these days. New York City affords every opportunity for exhausting incomes, both large and small. It is a city of great wealth, but this wealth is in the hands of comparatively few men. It is also a city of great opportunities for employment and a vast army of men and women crowd the thoroughfares, the subways and ferries, morning and night, representing all classes of toilers, from the man with a pick, to the high salaried clerk, who occupies positions of trust and responsibility.

The incomes of this great army of people vary from \$500 to \$25,000 a year, but the \$500 class is largely in the majority. The small income means the tenement in congested districts, with but little opportunity for saving, for the bare necessities of life absorb the earnings.

Many of these people would be better off in the country, but they cannot be driven out of the city and so New York, like every other large city, will continue to have her full quota of citizens who live close to the edge of poverty the year round.

Statistics show that fifty-two per cent of the voters in this country are taxpayers. A liberal percentage, and yet it means that nearly half the adult male population are destitute of property, living on incomes as fast as received.

This large minority represents all grades of incomes, including high salaries and liberal wages paid to expert workmen, for it does not follow that poverty is the sole heritage of the man whose earning capacity is limited.

The statement is frequently made that young men who live beyond their incomes would be just as well off on twenty-five dollars as fifty dollars a week and it is true, for where the value of a dollar is represented by the amount of foolishness it will purchase, the number of dollars simply means more extravagance.

The trouble with the average wage earner, whether to high or low degree, is not in the earning capacity, but in the saving ability.

There are plenty of men who have

CURE FOR "THE BLUES."

The doctors call it neurasthenia. In common parlance we call it "the blues."

It is a disease. And the disease can be diagnosed just like measles or typhoid fever.

The disease, say the physicians, is caused by nervous worry. It is peculiarly American because in this country it finds favorable conditions. American methods of living induce overstrain of nerve fiber. Overstrain brings worry, and worry brings the blues.

Americans go the limit.

The average business man works to the verge of his strength during business hours, which is all right. But he takes his business home and worries over it, which is not all right. By dwelling on difficulties he magnifies them. He loses sleep and in consequence loses power to overcome. The cumulative force of the continued strain brings on a fit of the blues.

Many American women suffer in the same way.

Household burdens grow heavy. Nerves are taxed to the limit. The woman begins to worry. She worries over the fit of her dress, over the style of her hat, over her children, over her husband—anything, anything, affords occasion for worry and the blues.

And the higher up the woman lives in the scale of society the greater the liability to neurasthenia. Late hours, the strain of social requirements, rich food, the bad air of theaters and ballrooms, lack of exercise, excitement—all these promote the conditions that bring on the blues.

Some—both women and men—under the strain of modern life resort to stimulants to restore strength and temper of mind, which only makes matters worse. Stimulants simply hasten the day of nervous breakdown.

What is the cure for the blues?

Sane living, that's all. Sane living means simple food, plenty of sleep, exercise in the open air, sunshine and, above all, a serene mind. In a word, the cure for the blues is "the simple life."

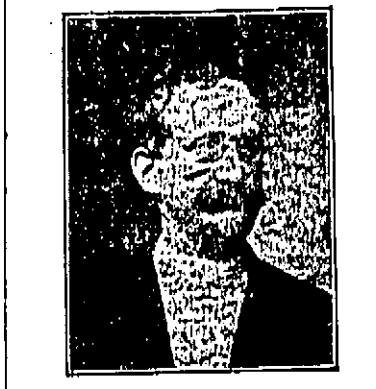

Of course it is not easy to throw off the habit of brooding over one's troubles. But one can do it. The physician of the rich solves the problem by sending his patient to a health resort. His object is to secure a change of scene for his patient. The change of scene produces a new viewpoint—breaks up the mental habit.

If you have strong will power you can get the new viewpoint yourself—and save the doctor's bill.

E. B. HEIMSTREET IS ONCE MORE CHOSEN

Janesville Man Named Secretary of the Wisconsin Pharmaceutical Society.

E. B. Heimstreet was elected secretary of the Wisconsin Pharmaceutical association at their annual session at Elkhart Lake, which closed yesterday. The association was organized in 1886. Mr. Heimstreet being the prime mover and for the first nineteen years of its existence Mr. Heimstreet was its secretary. Eight years ago he refused reelection but consented to taking the office again. W. P. Clarke of Milton was elected treasurer for the twenty-sixth consecutive year. Mr. Heimstreet was also honored by being

ADDRESSED THE SCHOOL BOARDS

STATE INSPECTOR OF RURAL SCHOOLS L. W. WOOD SPOKE.

PREPARATION OF TEACHERS

Interesting Meeting of School Boards in First District Held Today.

In the high school building today was held the annual meeting of the school boards from the first school district of Rock county, of which Charles Hemmings is the superintendent. There are eighty-two school boards in this district and about one hundred and fifty members of the various boards were present at the meeting today. The meeting was especially large on account of the new law passed by the last legislature granting to rural schools which have been conducted for eight months with proper equipment, text books, and heating and ventilation system, special state aid to the amount of \$50 a year for three years. A desire for information as to what was necessary to obtain this aid brought out a large number to the meeting. No three men in the state deserve more credit for this law, which will result in a big improvement in rural schools, than Superintendent Hemmings, Senator Hazelwood, and Superintendent Fox of Calumet county.

Program.
Prof. G. C. Shultz of Whitewater, spoke on "The Ideal School"; Fred Benda on "The Duties of a Member of the School Board," and discussion was opened by M. M. Holden, of Janesville, Supt. of Schools of the Second District; Supt. H. C. Howell of the Janesville schools, on "Educational Progress in the Past Twenty Years," with particular reference to part which legislative enactments have played; Justice of the Peace Charles Lange on "The Duties and Responsibilities of a School Board Member from a Legal Standpoint"; Charles L. Harper of the state department and others were also heard from. A question box was also conducted.

Preparation of Teachers.
One of the most interesting talks was delivered by L. W. Wood, of Nelville, state inspector of rural schools. Mr. Wood has visited over two hundred schools in twenty-five counties in the state during this year. His subject was the preparation of country school teachers. In part, he said: "There are three agencies in the preparing of country school teachers. They are normal schools, county training schools, high schools and teachers' institutes. There are about 7,000 country school teachers in the state and only about 1,000 ever attended a normal school and most of those attended for less than a year. Owing to the arrangement of the courses those who attended less than a year got no practical training in teaching. An attempt is now being made to have summer sessions of these schools, tuition free, to instruct teachers in the actual work of teaching. As it is now they furnish a small proportion of the country school teachers."

Training Schools.
The county training schools, of which there are sixteen in the state, are a very important agency. They average fifty attendants at each, but the most of these have had only a country school education and they do not reach the high school graduation which make up fifty per cent of our rural school teachers. While fifty per cent of our rural school teachers are high school graduates less than thirty per cent ever had any instruction in the methods of teaching. Until the last few years no high school taught this branch. Now Janesville and a number of other schools have courses especially for teachers and this has worked a great improvement.

Teachers' Institutes.
"Of the four agencies in training teachers the teachers' institutes are the most important. Ninety per cent of the rural school teachers have received no training in teaching except at these institutes. In comparison to the amount spent for teachers of the grades and high schools the amount expended on rural school teachers is very small. The county superintendents in their convention at Oshkosh asked that their appropriation be increased, and that the county superintendents have representation on the board controlling the institutes which is now the Board of Normal Regents. These regents are not in sympathy with the institute work as they prepare teachers for the city schools rather than the country schools. The superintendents ask that the board in control be made up of the state superintendents of schools, one member from the board of normal regents and one county superintendent. As the institutes are the most important agency in the preparing of country school teachers it seems only fair that the county superintendents should have a voice in their control."

Mr. Wood's talk was closely listened to and appreciated by his audience.

Beloit Man Will Answer Before Judge Field to Charges of Perjury and Election Frauds.

At the conclusion of the preliminary examination of Michael Cougherty, charged with perjury and aiding and abetting illegal registration and voting, in the Beloit municipal court yesterday afternoon, Judge Ross found that an offense has been committed and that there was reasonable and probable cause to hold the defendant for trial. Believing that a totally dishonest and a perfectly impartial sitting of the evidence could not be secured in Beloit, Judge Ross held the accused for trial before Judge Field in the Janesville municipal court on Monday, July 6. The case will be prosecuted by District Attorney J. L. Fisher and Atty. T. D. Wadsey will represent the defendant.

LOCAL PARAGRAPHS.

Canine "Twice Killed": Back of the city hall last evening Deputy Sheriff Dulin shot and supposedly killed a canine which was believed to be afflicted with the rabies. An hour later Officer Brown found the wounded creature painfully dragging itself about and desolately ended its existence with two more shots.

Gave Entertainment: Robert O. Bowman, of Milwaukee, Reader and Impersonator, gave a very pleasant entertainment last evening in the Carroll M. E. church auditorium, under the auspices of the Epworth League. While the number present was not as large as could be wished, the League hopes to have him read again later to a larger audience.

Mens Meeting: H. A. Metten, a student at Knox College, Galesburg, Ill., will preside at the mens' meeting at three o'clock tomorrow afternoon at the Y. M. C. A. The subject will be "Can you complete it?" Six other speakers will have individualism of the topic. Special music is being arranged and an interesting and profitable afternoon is expected. This is a fine place to spend a hour with your friends. All men are cordially invited.

Here to Buy Traction Engine: Art Board arrived here in his automobile from Ft. Atkinson this morning and purchased the traction engine which the P. Hohendael Co. experimented with in the spring ploughing. The engine will be used in road work near the Port.

Veteran of Varsity Crew: Contrary to Fred Little of Fond du Lac who is constructing the new harbor warren for the U. S. Navy was a member of the University of Wisconsin crew in the late nineties and is one of those who are deeply interested in the outcome of today's races.

ARRIVE TONIGHT TO REMAIN OVER SUNDAY

Dozen Members of the Ravenswood Golf Club Will Spend Sunday in the City.

A dozen members of the Ravenswood Golf club, of Chicago, will reach Janesville this afternoon and early evening to be the guests of members

O. SUTHERLAND.

of the Shamshel Golf club over Sunday. Last week Orlan Sutherland was the guest of members of the Ravenswood club and played a match game with Mr. Foster, a noted Scotch golfer who comes from the same part of Scotland as does the family of O. Sutherland and is one of the best of the Ravenswood players. The 60 year old Chicagoan defeated the Janesville man 2 up but it is predicted that tables will be turned here tomorrow. A return match will be played here between the two and possibly a third will come later in the season. Mr. and Mrs. Peters and Mr. and Mrs. Cantworth will arrive by automobile and the following will come by train: Mr. and Mrs. Lloyd, Mr. and Mrs. E. P. Parker, W. Frater, Dr. Fredericks, Edward Hughes and E. M. Holter.

Another bit of interesting news to local golfers is the fact that the "Old Man's" team of the Westward Club who are to meet the Janesville "Old Man's" team defeated the Green and "Old Man's" team in Chicago yesterday, sixteen to three. The players of the Westward team who will play here during July are as follows:

P. V. Castle, R. H. Salter, Percy Lowe, L. N. Conrad, W. H. French, D. W. Heath, R. T. Stanton, Jacob Mortenson, W. T. Davis.

The tickets and full information can be had at McNea & Duss, Whiskey's grocery and Badger Drug store.

Dryan Instructions Refused.
Burlington, Vt., June 27.—The Democratic state convention adjourned Friday night after an animated session devoted to the election of delegates to the national convention at Denver, the nomination of candidates for state officers and the adoption of a platform. A resolution instructing the delegates to vote for W. J. Bryan for nomination for president was tabled by a vote of 192 to 37 after a lively debate.

Union Labor Agent Convicted.
New Haven, Conn., June 27.—Frank McGee, a union labor agent, was found guilty by a jury in the common pleas court Friday on three counts, abetting intimidation in a strike at the Melagen foundry in this city about ten months ago, and was sentenced to three months in jail on each count. Stay of execution of sentence was granted in order to allow McGee to appeal to the supreme court.

Wu's Family Joins Him.
Washington, June 27.—Happiness reigns supreme in the Chinese legation, the family circle being made complete by the arrival from China of Madam Wu, her son and his wife and a granddaughter. When Minister Wu came to the United States as a representative of the Peking government several months ago for the second time, he left his family to follow him.

SOCIETY

Little Mary Sheridan, five year old daughter of Alderman and Mrs. J. J. Sheridan, was hostess to twenty of her small friends at a birthday party given at the home of her parents on South Jackson street yesterday afternoon. There were games on the lawn and plenty of refreshments were served in the open, and the young people thoroughly enjoyed themselves. Little Miss Sheridan was the recipient of a large number of birthday tokens.

Miss Laura Schlieter, daughter of Mrs. Anna V. Schlieter, 112 Madison street, returned this week from Chicago where she has been pursuing a course of study in St. Xavier's convent school. She stood third in her class at the end of the school year and will graduate next June.

On Wednesday fifty-two members of the Janesville Chapter of the Eastern Star were guests of the Postville Chapter at a dinner and entertainment given at the home of Mrs. Corry. The Evansville and Brodhead Chapters were also largely represented. An elaborate dinner served on the lawn was followed by a program in which Mrs. L. M. Holsapple, Mrs. J. H. Dower, and others from this city took part.

A linen shower was held at the home of Mr. and Mrs. Francis on Milwaukee Ave. in honor of Miss Mae Hopkins who will be married soon. A pleasant evening was spent and after midnight refreshments were served, the table being beautifully decorated with roses and beautiful flowers.

Mr. S. D. Wyatt and son Harold of Fond du Lac are here to spend Sunday with Mr. Stuart Mettlin. Both Mr. Wyatt and son are enthusiastic golfers and will play on the local links.

Mrs. C. R. Wright entertained the Five Hundred club last Wednesday afternoon at her home on Milton Ave. Tea was served on the lawn at six o'clock.

Mrs. John McNaught and little daughter who have been visiting with Mrs. Augusta E. Pfeiffer, departed this noon for St. Paul where they will spend the summer.

Mrs. Joseph McCue, an aunt of Alex. P. Russell, and Miss Olive McCue arrived here today from Providence, Rhode Island, for a visit.

Mr. and Mrs. George Thomas will depart on Monday for St. Paul, with the expectation of embarking therefrom on the new steamboat "Minnesota" on a voyage down the Mississippi to St. Louis.

Miss Orrie M. Smith, 151 Cherry street, will entertain this evening in honor of Miss Julia Linn of Denver and Miss Martha Linn of Chicago.

DULUTH ELEVATOR BURNS

FIRE ON RICE'S POINT DOES MILLION DOLLARS DAMAGE.

Property Valued at Like Amount Is Saved Only By Most Valiant Work.

Duluth, Minn., June 27.—Over a million dollars in property was consumed within two hours Friday afternoon on Rice's Point by a fire which razed elevator D of the Consolidated Elevator company to the water's edge, destroyed a dock and sheds of the Northern Pacific and imperiled surrounding property valued at another million.

Valiant work by a dozen tug boats which added the fire department is probably all that saved the bay front at that point from being entirely swept. While the firemen combated the flames on Elevator D the tug kept steady streams on all surrounding buildings from the ships within a radius of two blocks. The flames shot in the air high above the structure and, fanned by a brisk breeze, broke across the water and kept the docks and elevators almost at the point of ignition.

From 12:35, when the fire was discovered, until about four o'clock, elevator D was a raging furnace, then, after two hours' fierce burning, the fire had spent itself and gradually abated until, at eight o'clock, only smoldering wreckage of the property remained.

A small explosion, the origin of which cannot be accounted for, was quickly followed by the bursting of the flames through the roof, and before the department arrived the building was a veritable volcano.

F. L. Ritchie, P. L. Kellogg, O. M. Underhill and H. T. Sweeney, were here from Edgerton last evening.

✻ FORTY YEARS AGO ✻

Janesville Daily Gazette, June 27, 1868.—The teachers connected with the public schools of this city had a very pleasant reunion in the high school room this morning together with a few invited guests. They had provided an entertainment of straw, berries and cream which was thoroughly enjoyed by those present.

A Solid Sentence.—Officer Plate, who was summoned to Rockford to attend the trial of William, of whose horse stealing and barn burning exploits we gave an account some time since and who was arrested by Officer Plate in this city informed us that the prisoner was found guilty on three counts and sentenced to twenty-five years in the state prison. That ought to be a warning to him certainly.

A Narrow Escape.—A few days since one of the baggage men of the M. & P. du C. railroad was sitting in the door of a baggage car, he looked forward to see some cattle on the track at the same time his chair slipped and

he was thrown out of the door while the train was in full motion. In attempting to save himself he caught hold of the newsboy and pulled him out of the car. The boy escaped unhurt but the baggage man was seriously but not fatally injured.

Milwaukee, June 27.—The first concert Senguerfest took place last evening, composed of seventy instruments and a chorus of four hundred gentlemen and ladies. Thirty-two societies took part in the performance. The hall was beautifully decorated.

The Chamber of Commerce and the stores closed at twelve today to take part in the festivities of the occasion.

Washington, June 27.—An investigation committee has unearthed funds which show that the clerk in the 2d auditor's office has induced of late, paid out nearly a million dollars to parties claiming to represent negroes mustered into service, said parties generally being the owners of said negroes at the time they were mustered.

The Queen of Hearts, she made some tarts,
All on a summer's day;
The Knave of Hearts, he stole the tarts
And took them clean away.

Billville at the Play.
When Chauncey O'leary was here on old Billville former had a front seat at the play, and when he heard the line "He looketh death in the face and got a wife, the old man muttered audibly:
"Maybe, if he'd 'a' took a second look he'd 'a' changed his mind and lived single!"

A Pleasure Foregone.
"Have you studied political economy?"
"No, sir," answered Senator Sorghum. "I'd like to, but I'm afraid my constituents would think I was amusing myself reading books instead of hunting for pensions and appropriations."—Washington Star.

Not Without Hope.

Job Sturkey—I'm looking over this list of a hundred men that owns all the money in the country. I thought maybe my name would be there, but it ain't. Well, I didn't much 'spect to find it, anyhow.

Good Place for Him.
"What? You don't mean to say you are going to move out to Swamphurst?"
"Huh! You want to read the papers. There's more sickness there than in any other town in the vicinity."
"I know; I'm a physician."

**EVANSVILLE BEAT
BOWER CITY TEAM**

Janesville Red Sox Met Defeat Yesterday to the Tune of Five to One.

Evansville, June 26.—Evansville won from the Janesville Red Sox today, the score standing five to one at the finish. Both teams played well, there being few errors on either side. The feature of the game was the superior pitching of Beck and who struck out twelve men. A large and enthusiastic crowd witnessed the game.

A wedding in which many Evansville people are interested will occur at Evansville tomorrow when Charles A. Winsor of this city will be united in marriage to Miss Alice Grant. The ceremony will take place at three p. m. at the home of the bride's sister, Mrs. T. W. Parkinson, and the Rev. F. E. Hanchap, the Methodist minister of Plattville, will officiate. Mr. Winsor has held a position in the office of the Baker Mfg. Co. for some time and has made many friends here who will wish them much joy and extend a hearty welcome to the bride. The bride and groom will reside in the Sewell home on Maple avenue and will be at home to their friends after August 15th.

E. C. Fish who has been very sick for two or three weeks is at present improving slowly. Herbert Wright has purchased the restaurant on Main street of Dol McKimney who moved yesterday into the house recently vacated by Itav, G. E. Plant on N. Main street.

Miss Pearl Heffel, who has been teaching in the Johnson district the past year was given a most agreeable surprise at the home of Mrs. Orin Johnson last evening, the scholars, parents and numerous friends being present. Miss Heffel was presented with a silver spoon from her pupils. The Misses Hattie Chapin and Lillian Moore were present from home.

Miss Grace Crosby is having a two weeks' vacation from her duties in the telephone office and is visiting relatives at Lake Mills. Miss Lora North will fill her position during her absence.

Neil McMullen of Deloit was an Evansville visitor Wednesday.

Miss Olive Chapin went to Janesville yesterday and will be the guest of Miss Olive Reynolds for a few days.

No improvement is noted in the condition of Mrs. C. Jones who has been very ill for the past three weeks with gastritis.

Miss Amy McHardison spent Thursday at Lake Kegonsa.

Miss Mae Heron has been engaged to teach at Commonwealth, Wis., next year. Miss Eva Howard will have the first grade in one of the Madison schools and Miss Leta Walton is to be the teacher at Magnolia. Miss Anna Sewell of Stoughton was an Evansville visitor Wednesday and Thursday.

Maryann Keefe of Madison was a local visitor yesterday.

Mrs. Stella Couradson of Madison is the guest of her sister, Mrs. Della Bennett.

Cat Adopted Woodchucks.

On the same day that a litter of kittens was drowned at the home of Frank Plotts, near Inez, Pa., Mr. Plott's sons killed a woodchuck in the woods near the house and brought home from the animal's nest four young "chucks." These were offered to the mother cat, and to the surprise of the family she carried them to her bed and has since mothered them.

**BABY'S
VOICE**

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe! Angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel

the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of childbirth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain.

TAFT'S OUTING COMES TO CLOSE

TIRED OF PLEASURE, HE TURNS AGAIN TO POLITICS.

MAKES STOP IN NEW YORK

Cordially Greeted There by Citizens—Plans of Secretary and Family for the Summer Vacation.

New York, June 27.—Secretary Taft has passed from pleasure to politics. The transition, inevitable in a way, was really not distasteful to him. During the fun-making of commencement week at Yale he had a strenuous time. He really is greatly fatigued.

The change came between New Haven, Conn., and New York city. After bidding farewell at New Haven to some of his oldest friends, he boarded the 3:55 p. m. train for New York. The trip was quite uneventful. He was unaccompanied except by a newspaper friend. Embracing the opportunity to obtain a little rest, he dropped to sleep in his chair and was not awakened until the train had reached the Grand Central station.

Warmly Greeted at New York. There he was met by James T. Williams, Jr., a member of his political staff in Washington, who accompanied him to the Manhattan hotel. As the secretary left the station for the street he was given a cordial greeting by the hundreds of people who had assembled to see him. Once more he was a presidential candidate and not merely the "Bill" Taft of Yale.

The secretary was driven directly from the station to the Manhattan where apartments had been reserved. One of the first men to greet him as he entered the hotel was Senator N. H. Scott of West Virginia, who presented Mrs. Scott to him. The senator is a member of the Republican national committee and made an engagement to meet the secretary later in the evening. Representative William S. Loverington of Massachusetts hailed the secretary cordially and chatted with him for several minutes.

Family's Summer Plans. Washington, June 27.—Secretary and Mrs. Taft will close their home in this city within the next two weeks and, accompanied by the younger son, Charles, will go to Hot Springs, Va., for the summer. Miss Helen Taft will visit in the south before joining her parents in Hot Springs, while Robert, the older son, will spend his vacation in Murray Bay, Canada, where the Taft family have gone for many years to spend the summer months.

Mrs. Taft and Charles arrived here from New London, Conn., shortly after six o'clock Friday night and were driven in the war department carriage to the Taft home on K street. There the household goods are being packed in readiness for leaving—the house which Mr. Taft has occupied since he became secretary of war in February, 1904.

If the subcommittee of the Republican national committee meets on July 8, as has been announced, to confer with Secretary Taft in regard to the selection of a national chairman and on other matters, it probably will have to go to Hot Springs.

DEFIES FEDERAL OFFICERS.

Fugitive Post Office Robber Armed with Repeating Rifle.

New Orleans, June 27.—Armed with a repeating rifle, George Ellis, who recently escaped from United States officers by diving through an open window of a fast moving Illinois Central train with his hands shackled, in defying arrest near Chattanooga, Miss., his former home.

Ellis was arrested by New Orleans detectives and turned over to the United States authorities on the charge of robbing the post office at Roxie, Miss. When last seen he had got the handcuffs off, but was suffering from several ugly wounds which he received in his dive from the train.

Officers of Conclave of Acadia. Champlain, N. Y., June 27.—The Grand Conclave of Acadia, fraternal, composed exclusively of master Masons who are college men, closed its annual meeting here Friday. Officers for the coming year were elected as follows: Grand president, Joseph R. Wilson, University of Pennsylvania; grand vice-president, Howard C. Pierce, Iowa State college; grand treasurer, Maurice C. Tanquary, University of Illinois; grand secretary, H. E. Kilmer, University of Missouri.

Big Turnfest at Davenport, Ia. Davenport, Ia., June 27.—The Turner societies of Iowa, Illinois, Wisconsin and Minnesota Friday opened the largest district turnfest ever held here. At the hour of the funeral of ex-President Cleveland festivities were halted and memorial services were held, ex-Mayor C. A. Fieck delivering an eulogy on Mr. Cleveland.

Iowa Freight Rates Reduced. Des Moines, Ia., June 27.—A general reduction in freight rates marks the Iowa classification of freight rates No. 14, just issued by the board of railroad commissioners, and which takes effect July 1. The new rate schedule includes all the commodities.

Of Revenge. Revenge is a kind of wild justice; which the more man's nature runs to, the more ought law to weed it out.

BLOODY FIGHT IN MEXICO

TOWN OF LAS VACAS ATTACKED BY REVOLUTIONISTS.

Forty or Fifty Killed in Battle with Troops—Another Outbreak Is Expected.

El Paso, Tex., June 27.—A special dispatch received here says a band of Mexican revolutionists attacked the town of Las Vacas, Mex., early Friday, but were repulsed.

About 5,000 shots were exchanged. The officers' quarters were burned and between 40 and 50 were killed on both sides. The troop commandant was badly wounded. Another outbreak is expected as the revolutionists have well armed cavalry. All telegraphic and telephonic wires have been cut. The worst attack occurred at the custom house.

The attack on Las Vacas is separate and distinct from the affair at Viesca Thursday. The towns are more than 100 miles distant from each other and the assaults were at least 24 hours apart.

Some of the revolutionists are believed to have crossed into Texas. The Texas sheriff wired asking the governor if he could arrest any fugitives coming into the state. The governor referred the matter to the attorney general, who held that the state officers could take no action, as the matter of political fugitives coming into the United States from foreign countries was a question for federal authorities to deal with.

City of Mexico, June 27.—Repeated efforts to obtain official confirmation of the attack on the border town of Las Vacas by bandits have met with failure.

The office of the secretary of the interior remained closed during the night and at the residence of Minister Corral no visitors were received.

The secretary of the interior refused a statement regarding the affair.

Dispatches from various points in northern Mexico show that section to be in a state of ferment. The dispatches still characterize the raiders as bandits, but it is believed here that they are half criminal aggregations of political malcontents whose main purpose is to loot under the guise of insurrection. It is said that they have secured but \$2,000 thus far. The government says that the raiders do not number more than 50 armed men, but other reports place their total number as large.

AWAITING COURSE OF EVENTS.

State Department Marking Time in Venezuelan Question.

Washington, June 27.—The state department is marking time in the Venezuelan question. Events that have occurred have produced a situation that promises little change for some time and this government is merely "awaiting the course of events."

The gunboat Marietta is now on her way from Caracas to Guantanamo with Jacob Slesinger, secretary of the American embassy at Caracas, and Lieut. Francis A. Ruzicka, military attaché, as passengers. Nothing has been learned at the Venezuelan legation concerning the events in Caracas.

Fall Kills Banker's Son.

Chicago, June 27.—While trying on a coat in a tailor shop and looking at his reflection in a mirror, Raymond Wells, 18 years old, son of R. M. Wells, president of the Bankers' National bank, stumbled backward out of a fourth story window at 75 Jackson boulevard Friday and died from his injuries.

Amusement Resort Burned.

Indianapolis, Ind., June 27.—The White City, an amusement resort about eight miles from Indianapolis, was burned into Friday night, causing a loss of between \$150,000 and \$200,000. The evening was cool and few persons were there.

Nab Alleged Iowa Embezzler.

Birmingham, Ala., June 27.—J. C. Gould was arrested on instructions from Muscatine, Ia., where he is said to have embezzled \$3,200 from the Nutt Manufacturing Company.

USURPER ORDERS AN ARMY.

Mulal-Hadid Tells Calds They Must Raise 18,000 Men.

Poz, June 27.—Mulal-Hadid, the usurping sultan of Morocco, has summoned the calds to his palace here and peremptorily instructed them to raise an army of 18,000 men from the neighboring tribes.

Tangier, June 27.—Sultan Abdel-Aziz has applied to certain French bankers for a new loan of \$600,000, as security for which he offers mortgages on property of the government at Tetuan, Rabat and Saffi. The news of the operations of Mulal-Hadid, the usurping sultan, at Poz and Tetuan is causing agitation at Rabat, where Abdel-Aziz now is.

FIVE PERISH IN A WRECK.

Train Strikes Washout, Caused by Cloudburst, Near Chadron, Neb.

Chadron, Neb., June 27.—Five persons were killed Friday in a wreck on the Chicago & Northwestern road. A double-header passenger train, east-bound, struck a washout caused by a cloudburst 40 miles from Chadron. The dead: Willis Graham, engineer; O. C. Meyers, fireman; Fred Eloner, brakeman; two unidentified men who were stealing a ride.

Cleveland, O., June 27.—Traveling 40 miles an hour, train No. 19 on the Erie railway struck a broken rail three miles west of Garrettsville, O., Friday night and left the rails at a point where there is an embankment 25 feet high. Engineer Charles E. Symonds, 52 years old, was killed and several persons were injured.

OXFORD CREW CENTER OF SOCIAL LIFE AT THE FAMOUS ENGLISH UNIVERSITY, PURPOSE AND EFFECT OF THE RHODES SCHOLARSHIP.

BY DONALD GRANT HERRING, Special Correspondent.

At the same time that the American universities are having the big boat races of the season at Longbridge it is interesting to note that the crews of this famous old English university are likewise the social and athletic center of the student life. The above picture shows Christ church crew and its barge. It does not require an Oxford-Cambridge race to draw a big crowd, for rowing is very popular with everybody and the colleges each have their crews, which compete with one another. This also draws a large attendance and is the occasion of many social gatherings. On the barge are many young lady friends of the crew and it is considered an especial honor to be numbered among the select few who have the privilege of being on the barge.

Long, Weary Day. In shortening the hours of labor no one tries to shorten the hours for women in the household.

An Appetizing Breakfast

Wake up the palate with a steaming dish of Frank's Famous Frankfurter Sausage. You never tasted anything more deliciously flavored than these fine frankforters. Cured in the good old-fashioned way by hanging in the smoke of hard maplewood. Just as good for luncheon or supper, too.

Frank's Milwaukee Sausages (35 varieties) are made in a clean, light kitchen from the very choicest cuts of meat O. K.'d by government inspectors. No adulterants are used. Chemicals and preservatives never find their way into Frank's Sausage Kitchen. No wonder buyers who insist on the purest food are the largest users of them. Sold by the best dealers everywhere. If you do not find them at your market, drop a postal to L. Frank & Son Company, Milwaukee. They will see that you get them.

Premier pitcher of the American league in 1907 by virtue of 25 victories, four defeats and a tie, was born in Lawrence, Mass., in 1875. He played as a semi-professional in and around

Philadelphia and in 1895 pitched for the Sunbury, Pa., team, with which he remained the following season. He was with Pawtucket and Waterbury in 1898 and with Brooklyn in 1899, 1900, 1901 and 1902, being farmed out on two

occasions. He joined Detroit in 1903, but did not star with the Tigers until last season. He won both the games in which he has worked this season. His suspension for insubordination and a huge back have deprived his team of his services for several weeks. Donovan is a clever fiddler, fast base runner, smart ball player and reliable batter and frequently delivers a hit, when substituting for a regular at a critical stage.

BRESNAHAN'S BUSY BRAIN.

Famous Baseball Catcher Has His Inventive Genius Again at Work.

Catcher Roger Bresnahan of the New York Nationals has invented an accident proof catching glove. Roger is one of the greatest inventors of safety baseball devices in the world. He tries them on himself, but he isn't stingy. If any one else wants to use his ideas, they can—if they see him first.

Bresnahan received his first impulse along the rocky road of invention when he discovered that his shins were beginning to look like a pair of twin Swiss cheeses punched full of holes by being hit with the ball. To get rid of

ROGER BRESNAHAN, FAMOUS CATCHER OF THE NEW YORK NATIONALS.

the Swiss cheese Bresnahan tried various schemes, even going so far as to put glue on his shins and then apply a thick coating of feathers to form pads that would break the force of the down shots when they landed.

At last he solved the difficulty by adopting the English cricket shin guards, the idea being that the ball would be fooled on seeing them and would naturally slow up. This has worked well up to date, but the younger generation of baseball players are growing wise. Roger is keeping up to the times in scientific research. He is now applying for a patent on a scheme that will make the catcher's job a cinch—an automatic catching device that takes the sizzling ball hot from the pitcher, kills its speed and delivers it into the catcher's hands as true as a duck.

Seiver seems to have the Indian sign on the Chicago White Sox this season. Manager Jennings gets away with the Sox by working Killian and Seiver as much as possible against Fiedler Jones' aggregation. This is one club in the league against which he seems to be invincible.

James Wagner was worth any fancy salary that Barney Dreyfuss had to offer to induce him to return to the game. Never has the big Tenth batted or fielded better than this season.

MORMONS PURCHASE PUBLIC HOUSE IN ENGLAND FOR CHURCH.

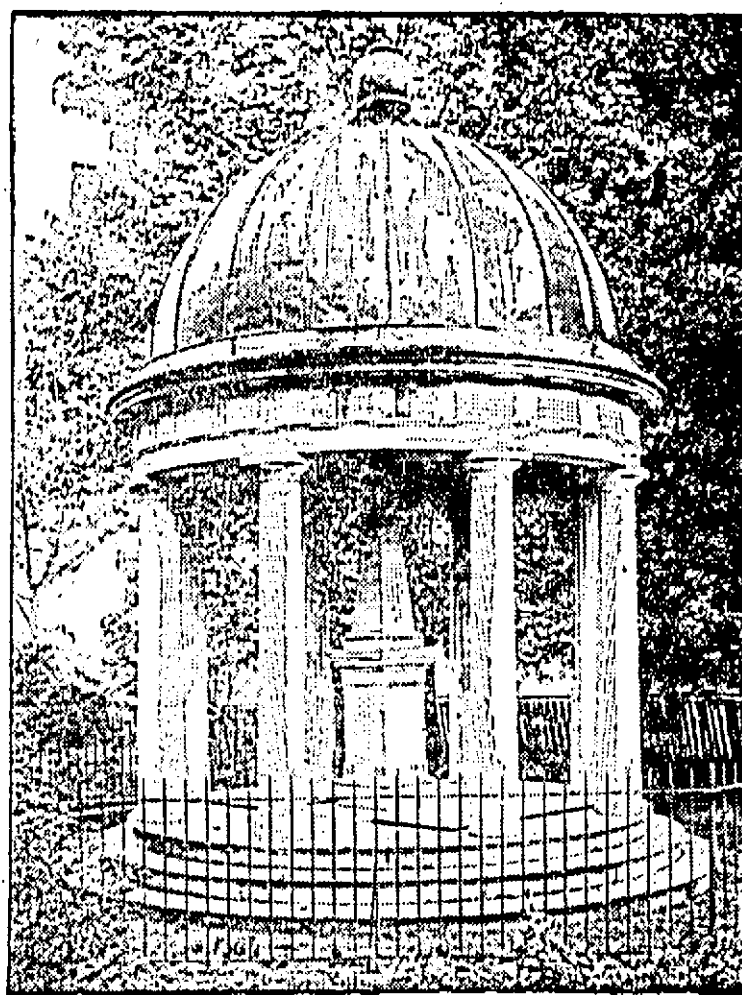

London, Eng.—The activities of the Mormon leaders is no better demonstrated than in the recent purchase of a building at South Tottenham, erected for a public house but never licensed, which is being turned into

a church and home for the Mormons of the south of England. Their missionary work is gaining many converts and although at present possessed of little strength their growth in England has been marked during the past ten years.

SCHOOL OF DESIGNS FOR WOMEN.

New York.—The school of designs for women, now under construction, is one of the most beautiful places of architecture in the city. Great pains have been taken to make this building combine practical sanitation and ventilation with architectural beauty. The building has been made possible through donations from many prominent and wealthy ladies of this city.

LITTLE JOURNEYS TO THE TOMBS OF AMERICAN PRESIDENTS—ANDREW JACKSON, NASHVILLE, TENNESSEE.

It is fitting that the tomb of Andrew Jackson, patriot and president, should be on the grounds of his beloved estate at Nashville, Tenn. The Jacksons. It resembles an open summer son graveyard in a corner of the house—a small white tomb, supported by pillars of white marble.

UP-TO-DATE FASHIONS

PONGEE FROCK FOR YOUNG GIRLS.

Chinese blue pongee with Chinese embroidery in harmonizing shades of blue and white combine to make a smart little frock for a young girl. As will be seen from sketch, the front panel extends from bust line to bottom of skirt and blouse and skirt are joined by a belt of pongee. The little chemiselet is white silk mousseline.

DAINTY NEGLIGEE.

The question of neck finish is a vital one in connection with the selection of a summer sacque or wrapper, but for many women overlook this problem, requiring only that the neck shall be low and cool. As a result many a woman looks a fright even in a dainty negligee. This one is ideal in its simplicity. It is made from the much used cretonne in a delightfully fine quality and dainty design. Note the little fan insets on each side of front.

THE BOOSTERS' CLUB.

Story of a Unique Organization That Is Booming a Town.

WAS THE OUTCOME OF A JOKE

But the Boosters of Northfield, Minn., Have Grown Strong—Wise Business Men Approve and Applaud These Youngsters, and the Town Grows.

Knock and the world knocks with you; Hoist and you hoist alone.

That is not always true, not by a long shot. One booster in a town, if he is a real booster, will draw other boosters to him, and the boosting soon will swell into a chorus. The original booster will have plenty of company. This fact is well illustrated by the story of the Boosters' club of Northfield, Minn., the little city made famous in 1870 by the bank raid and attempted robbery by the Younger brothers and their gang from Missouri. Northfield had one booster at first, and now the town has a whole club of them. These boosters declare that within five years they will boost the population of Northfield from 4,000 to 10,000.

The Boosters' club is an organization of young commercial and professional men, clerks and, in fact, all of the younger activity of the town. No restrictions are placed on eligibility to membership except good character and an age limit. Other requirements, however, to become a booster are set by hard and fast rules. Every one who joins first has to agree to bury the "knocker's hammer" and thenceforth to boost his town and its business interests. "For Northfield first" is the club's motto.

The story of how the organization started is worth relating. It was really the outcome of a practical joke, though the idea had been discussed by several spirited ones before.

On an evening early last spring word was passed around among the young men of the town that there was to be something doing on a certain evening in one of the halls of the town. There was to be a mock trial, with one of the progressive young business men as defendant, for the theft of a piece of furniture from one of the hostleries of the city. At the trial there was a judge, assisted by all of the usual and necessary court officials and an imposing array of legal counsel. About fifty young men applied for admission to the hearing. All that was required was the signing of a paper at the door. After a lengthy trial the question was left with the jury, and a verdict of guilty was brought in. At the close of the evening's amusement the paper, which was signed by every one present, was brought to the front, and, much to the surprise and amusement of all, it was found that the signature had been duplicated with the aid of carbon paper and each man had signed a pledge to abstain from intoxicants for a period of a year. After the court was adjourned the convicted man invited those present to a little lunch, and it was there that the organization was thought of. A suitable name was taken, that of the Boosters' club, and since that time this body of men has been known as such. The club does not pose as a moneyed body and publishes the fact that it is not composed of men who even have large salaries. It boasts of its energy and hustling qualities, and all it asks from the other class of citizens is co-operation and assistance.

The growth of the club is really marvelous. It does not stop to ask the applicant of his financial standing, religion or politics, but asks that all boost and stop knocking. One of the unique features of its membership is the invitation to all traveling men to join without any initiation fee or deposit. This feature alone is one of great advertising force. The traveling men are taken in as honorary members and have all the privileges of the club rooms. They naturally go out from Northfield and boost for the boys.

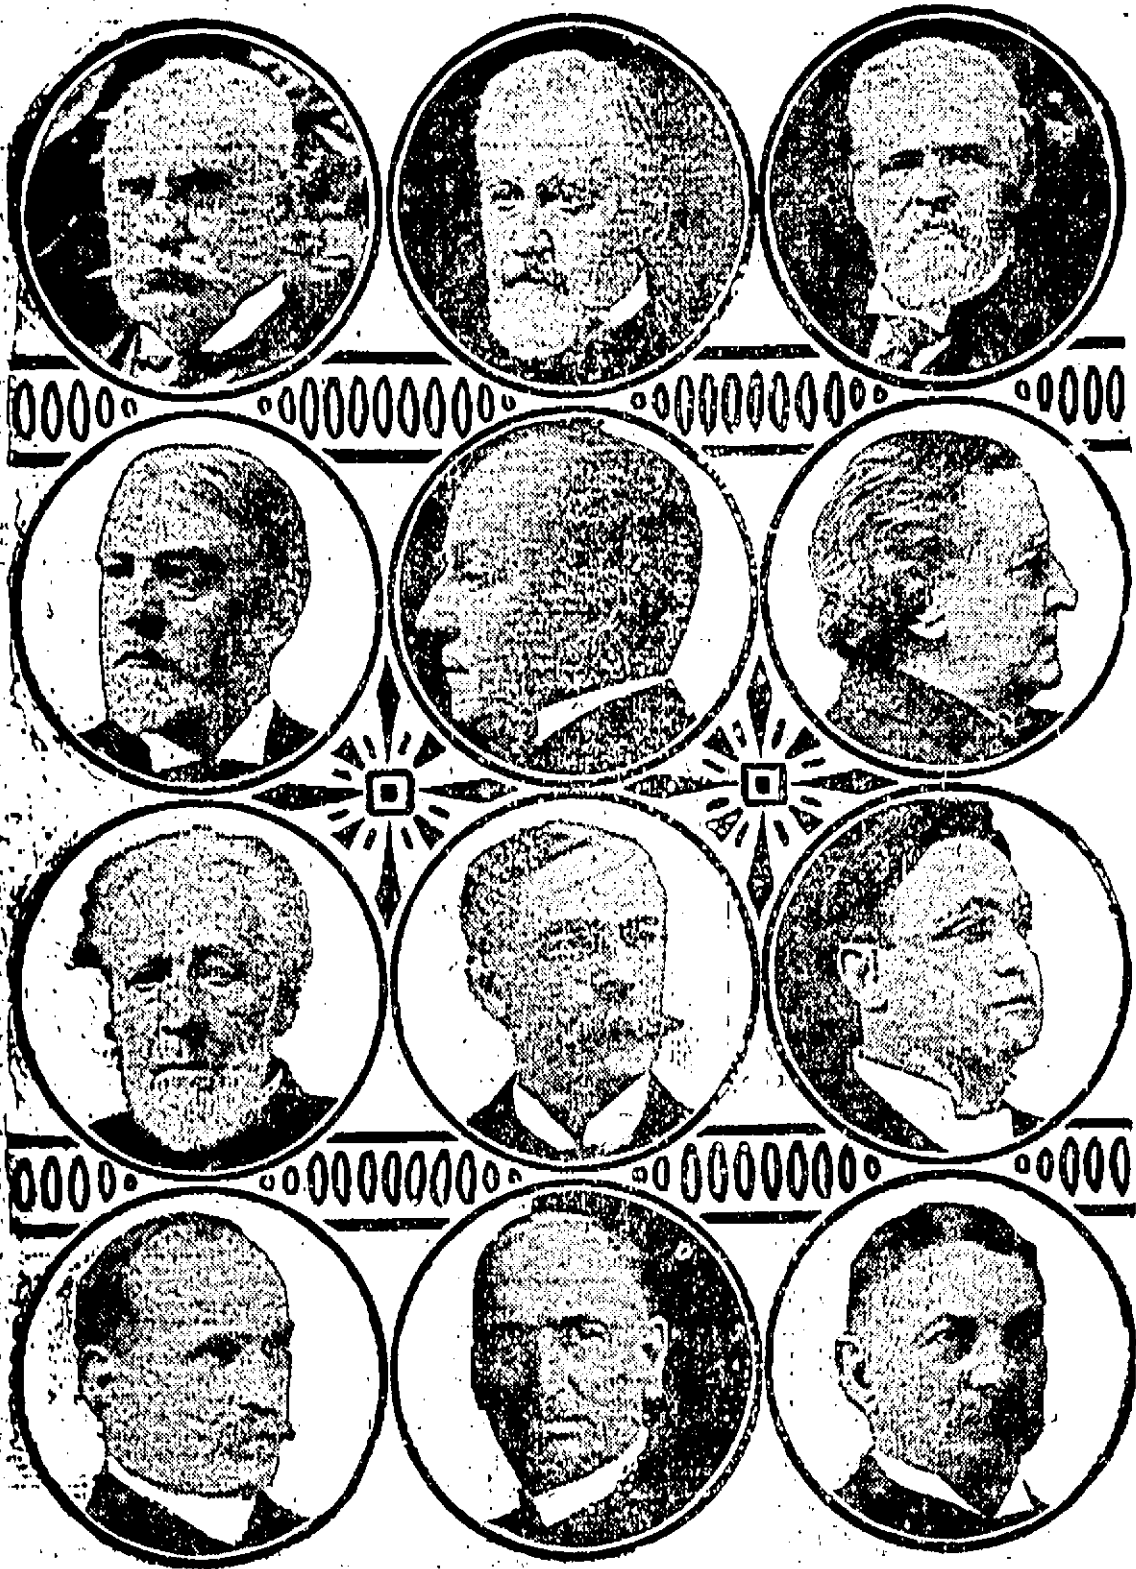

In the beginning the club had no funds of any kind, no place in which to hold its meetings, and even had not the respect of the men of the city. On one side it was called the "Boosters' club," and on the other it was known as the "Temperance society." But this the Northern Boosters' club has successfully lived down.

As soon as the officers were elected and committees appointed the latent energy began to show itself. A much needed public benefit, a rest room, was the first object of the organization. The club had no money, but had good agitators. Soon a movement was set going, and all of the organizations began to lend a helping hand. An eye-sore on the west side of the square has been selected as the site for the rest room, and it now remains for the moneyed men of the city to buy the site. The rest room is to be known as the "Hollywood Memorial," in memory of the hero of the famous bank raid in Northfield.

In many small towns Memorial day is observed in a half hearted manner, and for years Northfield neglected to co-operate with the G. A. R. in the proper observance of the national Memorial day. Last Memorial day the Boosters showed their hand, and, he it said to their credit, the town did nobly by its defenders. On the evening of May 29 a patriotic concert was given under the auspices of the Boosters, in which the best local talent was represented. An admission was charged to the exercises, the receipts of which were to be used for the defraying of the expenses incurred in the proper observance of the day. To this concert the members of the G. A. R. and W. J. C. were invited as guests of honor.

CURRENCY COMMISSION.

Reading from left to right they are: Senators Aldrich, Allison, Burrows, Hale, Knox, Daniel, Teller, Money, Bailey and Representatives Vreeland, Burton and Smith of California.

The currency commission, which is the outcome of the currency bill passed by congress, is one of the most important investigating committees ever appointed by congress. Its power is unlimited and it has the nations of the world

to study and consult. During its investigations, delegations will probably be sent to all the important powers. Experts will be called before it. Its purpose is a thorough study of currency and upon its recommendations will be based the next currency bill to be presented to congress. The commission is composed of nine senators and nine representatives.

The members are: Senators Aldrich, Allison, Burrows, Hale, Knox, Daniel, Teller, Money and Bailey as members of the currency commission, recently authorized by congress. Mr. Knox is the only senator representative on the commission who is not a member of the committee on finance. Representatives Vreeland of New York, Overstreet of Indiana, Burton of Ohio, Weeks of Massachusetts, Bourquin of Colorado, Smith of California, Republican; Padgett of Tennessee, Burgess of Texas, and Pujo of Louisiana, Democrats. Of these only Weeks, Burton and Pujo are members of the committee on banking and currency.

COUNTESS BERTHA VON BISMARCK.

German society is astonished at the discovery that Bertha von Bismarck, granddaughter of the "Iron" chancellor, who is 22 years old, has been secretly engaged to a young theological student for some time. The man of her choice has been engaged in tutoring the countess' young cousins, and through this became acquainted with

the countess herself. It is said to be a love match from start to finish, and so far it is not known whether the affair is meeting with opposition from the Bismarcks or not. The German people are greatly pleased by her choosing a man from a lower social station, but the aristocratic element strongly objects.

MISS LOUIS E. WALLER.

Chicago, Ill.—Miss Louisa Waller has broken the world's record for girls in the 50-yard dash in the hop, step and jump. Also in the standing broad jump. The contest occurred at

Roxbury hall, Stamford, Conn., where Miss Waller is attending school. She completed the 50-yard dash in 6 1/2 seconds. Her hop, step and jump record is 29 feet, 5 inches, and standing broad jump, 7 feet, 3 1/4 inches.

GEORGE BERNARD SHAW.

London.—No playwright is better known than George Bernard Shaw. His latest play, he says, was written for the benefit of his critics and created a storm of disapproval when presented for the first time. Shaw has met with more criticism perhaps than any other playwright, but he takes the optimistic view that the critics are wrong and pays little or no attention to them.

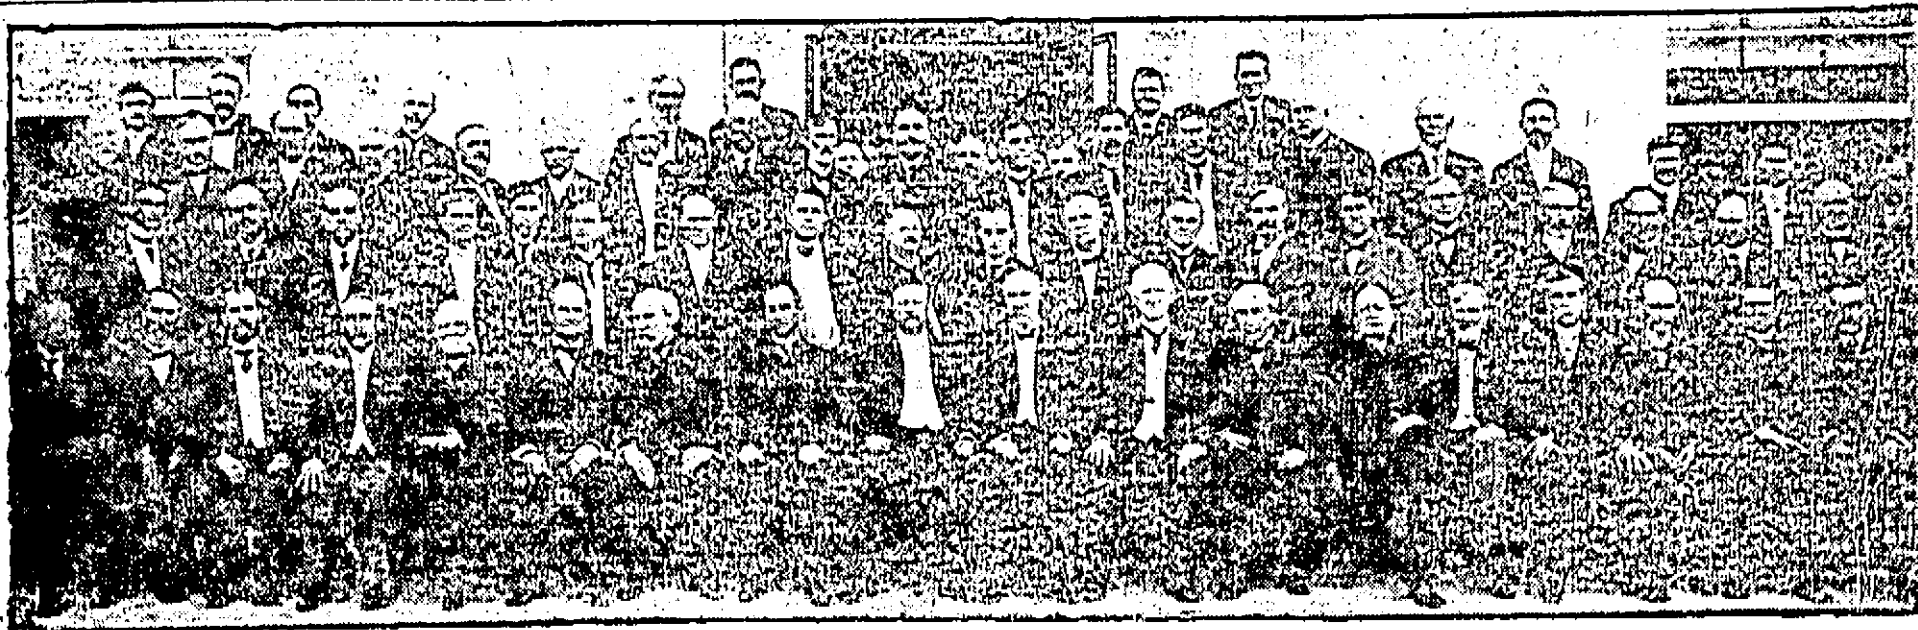

BOSTON'S NEW PERMANENT OPERA HOUSE AND THE MAN WHO MADE IT POSSIBLE.

Boston, Mass.—At last this city, renowned over the world for its music, is to have a permanent home for opera. This has been made possible through the generosity of Eben Jordan of the well known firm of Jordan Marsh & Co. It is expected that the building will be completed by November, 1909.

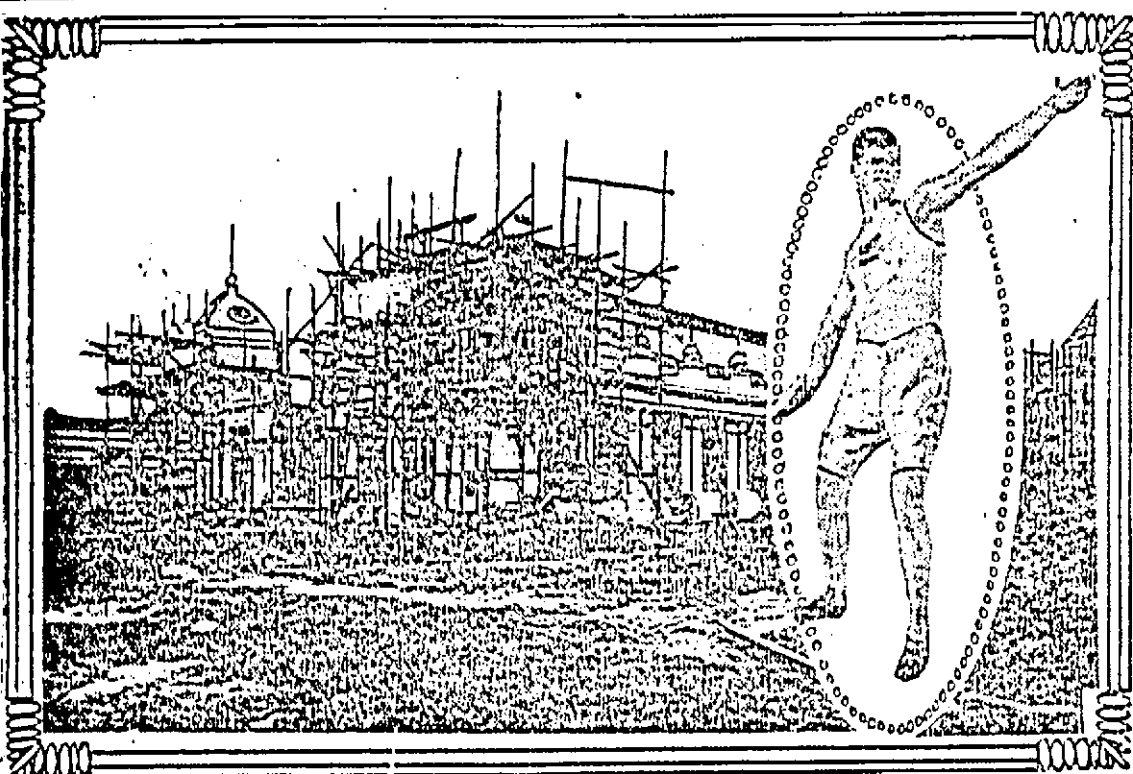

Mr. Jordan's plan is as follows: He will build the building and guarantee the expenses for a period of three years, provided an opera company is formed to be incorporated with capital stock of at least \$150,000 paid in cash and that this company lease the house for three years after having obtained three years' subscriptions to the boxes at \$2,000 a year for each box. The boxes are practically all sold and most of the stock subscribed, so the venture is assured.

RUSSIAN SOLDIERS PENETRATING WIRE ENTANGLEMENT.

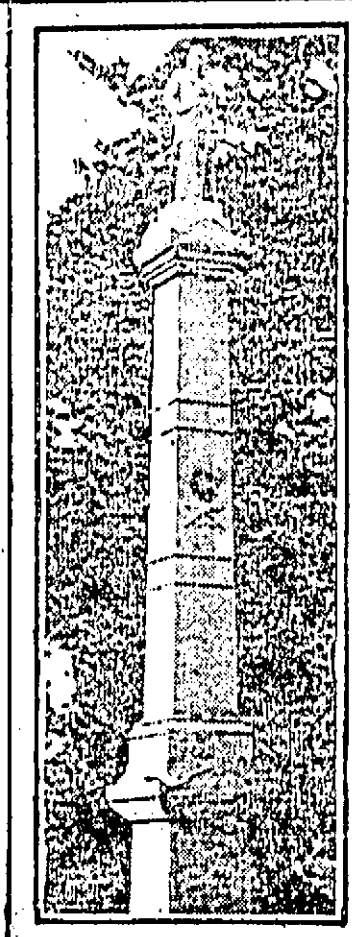

At a recent military tournament at Odessa the Russian army showed it had learned many lessons from the Russo-Japanese war. LITTLE JOURNEYS TO THE TOMBS OF AMERICAN PRESIDENTS—THE GRAVE AND MONUMENT OF ZACHARY TAYLOR.

Unknown to the vast majority of the citizens of Kentucky, neglected by the few who do know it, the tomb of the only president of the United States that the commonwealth has within her borders to revere is overgrown with weeds and vine undergrowth seven miles east of Louisville on the Brownsville road. Aside from Lincoln Major General Zachary Taylor is the only president Kentucky may claim, and this not because of his birth, but because of his affection for the soil that nurtured him and which he regarded as his home.

President Taylor's grave is in the burying ground of the Taylor family, established by his father, Colonel Richard H. Taylor, of revolutionary fame, on the old Taylor homestead between the Brownsville and the River roads next to the place, famous as Glenview, stock farm. It is situated on a slight embankment commanding the surrounding fields and farms and is in plain view from the road along which half of the people who drive do not know that the plain white granite shaft surmounted by a human figure commemorates a hero of the Indian and Mexican wars, as well as a president of the United States.

Science and Invention

A HORSE VELOCIPEDE

Pedals Not Only Operate Wheels, but Put Life into Horses. Something decidedly novel in the velocipede line has been designed by an Ohio man. It might be called a horse velocipede, for with a better word, but the horse will stand a great deal of whipping without moving. The velocipede is designed like a road cart, but the third wheel, which is some distance in front, supports the body of a horse, which moves up and down, as if trotting, when the machine is in operation. The rider sits in the seat of the cart and treads the pedals as he would in an ordinary velocipede, the difference being that when the wheels go around they put life into the horse, and when the machine is going at a rapid rate of speed it is difficult at a distance to distinguish it from a real pony cart. The reins are of elastic and stretch as the horse's head moves up and down, and the steering gear is the rod that runs back from the

A FORM THAT FITS ALL

Long Waists or Short Waists, It Makes No Difference. Through the ingenuity of a New York man, shopkeepers and dressmakers will be able to get along hereafter with one kind of dress form. Long waists and short waists all look alike on this body portion, which can be adjusted to fit anything the fashioner can wear. The form is made similar to those now in use, except that the model can be moved up and down the center and affixed at any height over the hip line that may be desired. In the old-style form a short-waisted waist did not fit on a long-waisted model, and vice versa, and both for window display and dressmaking a number of different forms were required, each

for a different type of figure. Either for fitting or display this invention is expected to be of value, both in the saving of money and time, for not only will one take the place of several of the old designs, but it will not be necessary to secure about for this suitable form for each occasion.

FOR PLANING FLOORS

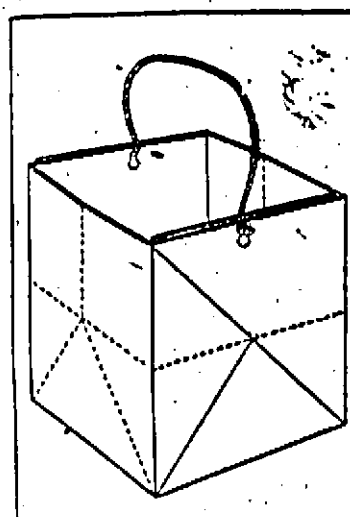

Carpenters Need No Longer Crawl Around on Their Knees.

Carpenters should take off their hats to the Indiana man who invented the machine described in this sketch, for it will save them much crawling about on their hands and knees. At first glance it looks like a lawn mower, but closer inspection shows that it is built for a different purpose. The weight of the machine is supported on a thick roller, and ahead of the roller there projects a framework that is made to hold two different kinds of blades, such as a plane would have. One of the blades is straight and the other V-shaped, and they are set in at the same inclination as the blades

A FOLDING RECEPTACLE

Flat When Collapsed, but Spacious Cube When Opened.

A Massachusetts man has come to the rescue of those who do not like to carry an armful of assorted bundles. He has devised a receptacle which, when open,

SAVES BUNDLE JUGGLING.

is a spacious square box with a rope handle and which can be folded into the space a thin magazine would occupy. The receptacle is made so that its walls fold in and lie flat on the bottom. It can be of either heavy paper, heavy canvas or metal, and can be manufactured cheaply enough to enable progressive merchants to keep a stock for use in place of paper bags and other receptacles which are unhandy to carry. By the rope handle it can be carried as easily as a leather bag and will be a boon to commuters and other people who cannot wait for the delivery wagons. This device will also make a serviceable and convenient lunch box for those who take their lunches to and from work. A metal box of this description would be found useful in a hundred different ways.

of a plane are set. The operator, instead of crawling stiffly about with a little hand plane, pushes the device about a room with the same majestic air that he would propel a perambulator, elevating or lowering the point to whatever height above the floor he wants it. If he desires to make a deep cut and is running with the grain of the wood, he can press the point down hard, while, if lighter work is needed he can merely skim over the surface.

BRYAN AND MITCHELL.

Omaha, Neb.—It is declared on good Nebraska authority that William Jennings Bryan would rather have John Mitchell, eminent labor leader, as the nominee for vice president with him on the next Democratic ticket than any man in the United States. Bryan has not said so, but it would be unbecoming in Bryan to say anything other way. The fact remains that an Omaha newspaper, which has been considered the mouthpiece of Mr. Bryan, has declared that Mitchell is the strongest possible man the Democrats can nominate for vice president. The editorial in question, which is taken in many quarters to represent the ideas of Mr. Bryan himself, takes up the list of names so far mentioned in connection with the vice presidency and eliminates the majority of them "for cause," leaving only John Sharp Williams, Senator Calhoun of Texas; ex-Governor Douglas of Massachusetts; Tom Johnson of Cleveland and John Mitchell. Then this same editorial proceeds by inference to espouse the cause of Mitchell by handing him as probably the strongest of all of these vice presidential suggestions.
